DISAPPEARANCE OF LATVIA, ESTONIA AND LITHUANIA AS INDEPENDENT STATES SEEN

MR. LLOYD GEORGE
Welsh Wizard To Inspect Defences

TOUR OF WALES SCHEDULED

LONDON, July 21 (Reuter).—Mr. Lloyd George will make a tour of Wales next week. The tour was decided upon on Friday when Mr. Lloyd George visited the War Office for the first time this war and conferred with Mr. Anthony Eden.
The ex-Premier's secretary told Reuter: "Mr. Lloyd George is naturally very anxious about the defences of Wales in view of the possibility of an invasion. This subject was only discussed with Mr. Eden."
Mr. Lloyd George's advice has been sought by individual Ministers on a number of occasions since hostilities began.

Britain In Eight Divisions

LONDON, July 21 (Reuter).—Division of Britain into eight areas, each ruled by a special commissioner who will operate only in case of emergency, marks the full completion of the defence scheme.
The eight areas have been further sub-divided into 26 areas with commissioners, thus providing for full official control to meet an actual war situation.
Local committees are being established in every parish to co-operate with the commissioners.
The local defence forces are now over 130,000 strong while local volunteer security units are supplementary.
Everything is apparently ready, even in the remotest areas, and aerial attack has been specially provided against.

INDIA SAYS HITLER IS NOT SINCERE

LONDON, July 21 (Reuter).—The All-India Radio says: "All India regards Hitler's peace offensive as a worthless gesture."
The Times of India declares that Hitler's talk of peace is so obviously insincere it can deceive nobody, while the Hindustan Times of Delhi says that Hitler appealed to Britain's common-sense and reason but his speech lacked both.
The Lahore Tribune considers that the speech will steel Britain's determination to prosecute the war to the end.

Formal Incorporation In Soviet Early Next Week

THE EARLY DISAPPEARANCE OF LITHUANIA, ESTONIA AND LATVIA as separate States is predicted by the Diplomatic correspondent of the Observer.
The writer, according to a Reuter message from London, points out that elections in the three countries last Sunday resulted in the return of Extreme Left candidates.
Russia's immediate plans for Europe are now known to be of the verge of completion.
It is expected that before the end of this week a formal request will be made from Lithuania, Estonia and Latvia for incorporation in the U.S.S.R.

CHINA GOES TO WORK

FINDING NEW SUPPLIES

CHUNGKING, July 21 (Reuter).—With the closing of the Burma Route, which has shut Chungking off from all access to the sea, the Chinese authorities are now taking active steps to put their country's economy on a new basis.
To compensate for the loss of supplies from the Western countries, Government officials are studying the question of obtaining supplies by land from Russia and from Szechwan, China's westernmost province.
China's determination to fight on was reiterated in the press and by Government officials. Outstanding differences between the Communists and the Government Party are reliably reported to have been amicably settled.

The correspondent says Moscow is far more interested in co-operating with Britain in the Far East than in Europe. Regret is openly expressed in Moscow over the Anglo-Japanese agreement.
The regret is intensified by what is regarded as a curious failure by Britain not only to consult with Russia but even to inform Russia officially.

CONTACT HOPE

Hope persists that some sort of contact will still be made between London and Moscow.
Such a possibility is increased by the fact that the Burma Road agreement is provisional and that ultimate settlement must be made by full participation of China, Japan, Britain, America and Russia.
[Estonia the most northerly of the Baltic states, was proclaimed an independent Republic on Feb. 24, 1918 and was recognised by the Supreme Council of the Allies on Jan. 26, 1921.
Latvia was proclaimed an independent state on Nov. 18, 1918, while the independence of the Lithuanian Republic (Lietuva) was proclaimed at Vilna on Feb. 16, 1918.]

REALISTIC ALL-NIGHT JAPANESE OPERATIONS

SHANGHAI, July 21 (Reuter).—Days of tension in the crisis north of the Creek were vividly recalled throughout last night during manoeuvres staged under realistic conditions by the Japanese Special Naval Landing Party.
Cordons of blue-jackets strictly guarded the areas under operations while sandbags were piled high in emplacement, reminiscent of the dark days of the Shanghai war in 1937.
Rear-Admiral Saito Takeda, commander-in-chief of the Special Naval Landing Party, left headquarters at 9.30 last night to begin his tour of inspection of various outposts while the exercises were being carried out.
The exercises continued until dawn this morning.

R.A.M.C. Man Missing Since June 30

Sgt. J. S. Burnett, of the Royal Army Medical Corps, who has been missing from the Military Hospital, Bowen Road, since June 30, has not yet been found, it was learned at a late hour last night.
Reports have gained circulation that the missing man has been hiding out in the hills above Bowen Road and that he came down on two occasions for food, either time to a different mess in the Bowen Road area.
These reports were denied when inquiries were made of the Military Police last night, though it was affirmed that Sgt. Burnett has not yet been reported found.
The missing man is 5 feet 8 inches tall, and was last seen in military uniform.

The Map illustrates the occupation demanded under the Armistice terms. The zone of German Occupation (shaded) entirely cuts off that territory left to France, from the Atlantic seaboard and the Channel Ports. There was no indication whether Italian claims would affect any of the unshaded area.

CLAIMS FOR 100 PLANES

BRITISH AND FRENCH

WASHINGTON, July 21 (Reuter).—The British Ambassador, Lord Lothian, and the French Ambassador conferred separately with Mr. Sumner Welles regarding some 100 American-made aeroplanes which the aircraft carrier Bearn took to Martinique from Canada.
The Ambassadors are submitting rival claims as to ownership.
The point at issue is whether the planes were included in the agreement whereby Britain took over the Anglo-French Purchasing Commission's commitments.
Negotiations for an amicable settlement have been progressing for some days with the United States in the role of intermediary.

OVER HUNDRED PLANES IN COMBAT NEAR BRITAIN

Nazi Dive-Bombers Get Warm Reception From Our Defences

LONDON, July 21 (Reuter).—German dive-bombers made a determined attack on a convoy in the English Channel yesterday evening.
One strong formation was seen to swoop down on the last ship and dropped a salvo of high explosive bombs all round it. Other bombers rained over 50 bombs on the rest of the convoy.
Fierce anti-aircraft fire from the warships' guns and coastal batteries finally drove off the raiders and British fighters streamed out to the sea to engage them as they fled.

SEAPLANE BOMBER SHOT DOWN

Further planes brought down by the R.A.F. yesterday brought the toll of German raiders to 14 in two days.
R.A.F. fighters yesterday morning downed a Nazi seaplane bomber. Another German raider is believed to have been shot down in mid-Channel yesterday afternoon. The Nazi bomber was one of several which attacked ships anchored inside a south-east coast harbour. Bombs were dropped but no hits were scored.
Raiders flew over the coast and then dived back onto the harbour. A bomber was seen flying low over the roof tops with three Spitfires on its tail.
In mid-Channel a raider plunged toward the sea, leaving a plume of black smoke behind it.

Thirty For The Week

Enemy aircraft made a second raid on the south-east coast yesterday. An aerial dog fight resulted over the shore and a little way out to sea, while heavy anti-aircraft fire added to the raiders' troubles.
It is believed that two or more raiders were shot down which, if confirmed, would increase the total of aircraft brought down yesterday to at least five. The four officially accounted for, bring the total for the week to 30. It is calculated that the Germans have now lost 148 aircraft for certain since July 17 and probably 40 to 50 others.

BOMBS FALL ON WELSH TOWN

LONDON, July 21 (Reuter).—Fifteen bombs were dropped on a Welsh town this morning. Few people were injured but not seriously. Many houses were damaged and windows smashed.

SKY THICK WITH AEROPLANES

Several of the German dive-bombers seen earlier must have been damaged by the shattering anti-aircraft fire from warships. None were actually seen to fall in the sea by onlookers on the shore, but the scene was often obscured owing to smoke fountains spray.
An eye witness said: "The bombers dived almost to the decks of the ships. They swooped down from 3,000 feet so steeply it seemed almost impossible for them to pull out in time."
Nearly a hundred enemy and British aircraft were in the air at one time, and the sky was full of planes diving and climbing.

MERSA MATRUH ATTACKED BY THE AIR FORCE

LONDON, July 21 (Reuter).—An R.A.F. Communique issued in Cairo yesterday stated that Mersa Matruh (in western Egypt) and neighbourhood was raided during the day and night of July 18 to 19.

An enemy bomber crashed and caught fire; five of the crew were killed and the wireless operator was taken prisoner.

The R.A.F. bombers raided El Gubbi (Libya) and five large fires were started.

SHIPPING BOMBED

Shipping in Tobruk harbour (the Libyan naval base) was bombed. Some direct hits were registered but the extent of the damage is not yet known.

In a raid on Neghell aerodrome by the South African Air Force, one incendiary bomb hit an enemy bomber which burst into flames becoming a total wreck.

Other bombs did extensive damage to another Italian bomber and two more are probably unserviceable.

A petrol dump was blown up and a building set alight. Several enemy aircraft were parked near the site of the explosion.

ITALIAN 'DROME ATTACKED

A communique issued in Nairobi yesterday said our aircraft successfully bombed the Italian aerodrome at Neghell on Friday, inflicting heavy damage. A petrol dump was destroyed and fires started in buildings and workshops.

The communique adds that Agordian aerodrome, in Eritrea, was raided, and three Italian aircraft severely damaged.

Direct hits were made on hangars and when the aircraft left, the whole area was obscured by smoke.

Masacra aerodrome, in Eritrea, and surrounding buildings were again bombed and direct hits on the camp caused considerable damage.
From all operations all R.A.F. aircraft returned safely.

NEW JAPANESE MINISTER OF FINANCE

TOKYO, July 21 (Reuter).—Prince Konoye, Japanese Prime Minister, has appointed Mr. Reiji Kawata, former Chief Secretary of the Cabinet, and now a member of the House of Peers, as Finance Minister in the new Cabinet.

TIN AND RUBBER RESERVE STOCKS FOR AMERICAN NATIONAL DEFENCE

LONDON, July 21 (Reuter).—THE TEXT IS PUBLISHED TODAY OF AGREEMENTS whereby the United States will acquire reserve tin and rubber for the national defence programme.
By agreement with the International Tin Committee, the Reconstruction Finance Corporation will finance the purchase of all tin available under the export quota recently raised to 130 per cent of the standard production for twelve months.
Tin will be bought at U. S. 50 cents per lb. and will be held for not less than three years from January 1, 1941.
Tin may be released to the United States Government in the event of national emergency and the agreement may be terminated when not less than 75,000 tons of reserve is accumulated.
The agreement with the International Rubber Committee provides for the purchase of reserve between 100,000 and 150,000 tons for shipment, before the end of the year, at 18 to 20 cents per lb.

RIGHT TO LIQUIDATE

At the expiration of three years from January 1, 1941, the Reconstruction Finance Corporation have the right to liquidate the tin stock provided it gives written notice to the International Tin Committee and agrees that not more than 5 per cent of the stock, with a maximum of 5,000 tons, shall be liquidated in any three-monthly period.
If the supply of rubber or the facilities for transportation should be adequate within the period named the purchases shall continue for shipment subsequent to December 31, 1940, as it may be

PRESERVE STOCK

In the event of emergencies releases will only be permitted to preserve stock to the extent necessary to maintain trade stocks at normal level.
After December 31, 1943, the stock will be liquidated not exceeding 100,000 tons per annum in such a manner as will least disturb the world price.

RECREIO "A" MAINTAIN UNBEATEN RECORD

Dick Alves Scores Big Win Over G.H. Sherriff's Rink

Recreio "A", holders of the Senior Division Bowls Championship, had an easy win over the Bowling Green on Saturday to retain top place in the League Table and, incidentally, to maintain their 100 per cent. record for 10 games played.

"Dick" Alves was their most successful skip, recording a 17-shot victory over G. H. Sherriff while the other two skips, Carlos Silva and F. X. Silva each chalked up 21 shots against A. M. Holland (15) and A. J. Hall (16) respectively.

Kowloon Bowling Green, scored an easy win over Police R.C. in the Second Division to lead Kowloon Football Club by two points though the latter have a game in hand.

The other games resulted very much as expected:—

"Front-Page" Pitching

"SKI" POWLAWSKI FANS 16

In a disappointing match on Saturday afternoon, the Hongkong Brewers emphasised their challenge for championship honours by trouncing Chung Hwa by 10 tallies to 0, inflicting on the Chinese boys their first calamity for many seasons.

Overshadowing this performance, the Royal Engineers created the most surprising upset of the week by winning their first points at the expense of the Hongkong Baseballers by the astounding margin of 17 markers to 8.

Although the Club were not at full strength, the Sappers played their best ball to date and thoroughly deserved their win.

"SKI'S" GRAND PITCHING

One for the front page was served up by "Ski" Powlawski, when pitching for the Mindanao against South China. "Ski" set a new record for strikeouts of which he registered 16, at one stage fanning twelve in a row. Only twenty-one opposing batters made the trip to the plate as Ng who was the only losing batter to get on base, through the medium of a free pass, was pegged out by Tony Mascavage at second base. In issuing one "Annie Oakley," "Ski" missed pitching the first perfect game that this writer has ever seen in many years of local baseball.

FRIENDLY GAME

After the league matches were over, the Tulsa took the field against a local squad in a friendly session. Spotty Pereira made an impressive return to the mound and mainly through his efforts, the local squad won by the odd run in 21, although Nip Lum scored the actual winning tally, by stealing home in the final frame.

WEEK-END RESULTS

H.B. 10, Chung Hwa 0.
R.E. 17, H.K.B.C. 8.
Mindanao 14, South China 0.

"Summer Race Meeting"

The Australian and New Zealand Association, through the courtesy of Kowloon Cricket Club, will entertain 80 Australian and New Zealand Naval Reservists to a "Summer Race Meeting" in the main hall of the K.C.C. tomorrow, at 8.30 p.m.

A novel programme of events has been arranged and every effort is being made to transfer the hall into as near a miniature Rendwick or Flemington as the talent of the best Aussie memories here can make it.

Members of the Kowloon Cricket Club and of the Australian and New Zealand Association and all "advisers" who have at former socials and evenings entertained the Australian Naval Reservists are cordially invited.

Two Aquatic Meetings

V.R.C. AND THE CHINESE "Y"

Both the Victoria Recreation Club and the Chinese Y.M.C.A. held their first swimming gala of the season on Saturday night. Chung Shing won the open 200 metres four-men relay at the latter's gala with Eastern second. All the events at the V.R.C. were handicaps.

Owing to an erroneous announcement the many people who turned out to watch the swimming gala between V.R.C. and Lai Chun were disappointed when told that the contest would not be held that night. The gala will take place on Saturday, August 3, commencing at 9 p.m.

"OVER THE MOON"

If the essence of romance is the weaving of day-dreams into life, then Alexander Korda's "Over the Moon" is the cream of romantic stories. All the "stuff that romantic" dreams are made on have found their way into the composition of this gay and giddy story, which discovers Merle Oberon as an impoverished orphan in Yorkshire, and dances her as a millionaire heiress across Europe.

"Over the Moon," directed by Thornton Freeland, is in Technicolor and is released through United Artists.

KING INSPECTS HOME GUARD

Veterans And Youngsters Together

LONDON, July 21 (Reuter)—The King, who in recent weeks has seen a great deal of the armed forces of Britain and the Dominions in England today, witnessed for the first time, a large-scale parade of the Home Guard.

Two thousand local defence volunteers from Essex marched past His Majesty to their headquarters. Eighty per cent. were ex-servicemen, some have seen three campaigns but shoulder to shoulder to them marched many youngsters, aged 17.

The King commented afterwards it was "extraordinarily good."

ARCHBISHOP DENOUNCES NAZIISM

"PAGAN CLIQUE" OF TYRANTS

LONDON, July 21 (Reuter)—Cardinal Hinsley, Archbishop of Westminster, brands the Nazi as a "pagan clique of upstart tyrants," in a message to the new organization formed under his presidency by Catholics to help the National cause.

The aim of this body is to "co-ordinate and intensify the efforts already being made by Catholics in England to fit themselves by prayer, work and study, to contribute as much as they can to the national cause at this time."

OFFENSIVE IS POSTPONED

BERLIN, July 21 (Reuter)—The threatened offensive against England has been postponed to enable new political action to be tried out, asserted the Berlin correspondent of the Swiss newspaper "Basler Nachrichten" yesterday.

The correspondent declared Hitler's speech disappointed Germans. They were expecting a final ultimatum as culmination of the war of nerves against the British people, to create a breach between them and their Government.

The writer pointed out that no date was mentioned for the German attack, and he regards the speech as "an attempt to build a bridge."

PENAL SERVITUDE FOR EDITOR

LONDON, July 21 (Reuter)—According to the German Wire-press, Mr. Lucien Dorne, editor of the Lille newspaper, "Echo du Nord" was sentenced to five years penal servitude by the German military court.

It was stated that Mr. Dorne attempted to publish a text of the Armistice conditions before the publication by the Petain Government, and alluded to "the Armistice conditions despite the German censors' warnings."

He was also said to have attempted to publish photographs of Mr. Churchill and Mr. Jasper and published a photograph of a French spy shot by the Germans during the last war, and having actively engaged in stirring up passive resistance, among the French.

RHODESIA DOES HER PART

LUSAKA, July 21 (Reuter)—A sum of £10,000 collected for fighter planes is being cabled immediately to Britain as the first instalment of the war effort from Northern Rhodesia.

RED CROSS WORK

LONDON, July 21 (Reuter)—Americans in Britain have collected £100,000 for Red Cross work.

The American Red Cross expects to have 200 ambulances in the near future in aid of civilians in air raids in Britain.

Prince Konoye Returns To Premiership

Situation Not Clear, Says Shanghai Journalist

SHANGHAI, July 21 (Reuter)—For the first time since the war began, Japan has changed her Cabinet and Prince Konoye has returned to the Premiership, said Mr. O.W. Green, former editor of the "North China Daily News" of Shanghai, in a broadcast last night.

The situation is, as yet, not very clear. Not only has the Government been changed, but the whole nature of the Parliamentary Government is also to be changed.

The whole basis of Japanese life in politics and business and private living is the family living in rigid discipline. Government and Parliament is looked on as one big family representing the family of the Japanese nation.

NEW POLITICAL STATE

Konoye's scheme, therefore, is for the formation of a new national political state in which all the parties merge. The Seiyukai (or, roughly, Conservative) party is reported to have already agreed to join Konoye's new organization, and the Minseitō (or Liberal) party to be moving in the same direction.

This does not imply the tearing up of the constitution, but outlines of the old one are being filled in with new colour.

Turning to the effects of France's collapse, Mr. Green said that when Germany made her pact with Russia, the pro-Axis policy was for a time completely discredited. With the recent German successes there has been a renewal of the agitation.

ANXIOUS TO END WAR

That does not mean that Japan will necessarily throw in her lot with Germany. To the Japanese people, any entanglement with the quarrels in Europe is distasteful.

Konoye is no fire-eater; he is called a man of moderation, and far-sighted.

Matsuoka, Foreign Minister, has travelled widely, and in Japan is looked on as a man of strong character and wide views.

Japan's main concern is to finish the war with China. Japan is now reviewing her military and diplomatic relations with redoubled force to crush China.

"Whether she will do so or not only the future can tell," concluded Mr. Green.

"Two Ocean" Navy Bill

BIG NAVY FOR THE U.S.

WASHINGTON, July 21 (Reuter)—The "Two Ocean" Navy Bill, providing for a vast seven year programme of naval expansion to create an armada capable of greater range and striking power than any other in the world, to enable the United States to meet attacks simultaneously from the Atlantic and the Pacific if need be a thousand miles from shore, was signed by President Roosevelt and has become law.

In 1947, it is hoped to have a navy of 701 warships consisting 35 battleships, 20 aircraft-carriers 88 cruisers, 378 destroyers, and 18 submarines.

It is estimated it will cost about \$2,000,000,000 yearly for the next seven years to construct the fleet and to maintain the ships already in existence \$1,800,000,000 yearly to support it thereafter.

REALLY RARE OCCASION!

LONDON, July 21 (Reuter)—Dealing with Sir Stafford Cripps' interview with Stalin, the Moscow correspondent of the London "Times" yesterday pointed out that it is a rare occurrence for Stalin to receive foreign ambassadors.

The correspondent says the most that can be said at present about Anglo-Soviet relations is that the atmosphere has improved.

This, however, is rather an assertion of Soviet neutrality than a reflection of any change in Soviet relations with Germany.

The broad consideration which caused the Soviet to make the pact with Germany remain valid. The Soviet's present policy is to keep the country out of war.

CHINESE COMMENT ON PREMIER'S STATEMENT

Indignation Voiced About Burma Route Closure

CHUNGKING, July 21 (Reuter)—The publication here of the statement by Mr. Winston Churchill, British Prime Minister, in the House of Commons on Friday regarding the closure of the Burma Road, has been received with indignation in Chinese circles.

Press, private conversations and public meetings of Chinese are, seizing every opportunity to flay British policy.

In an editorial, the China Times claims "that Britain's action is without moral or legal right and constitutes interference in Chinese internal affairs."

The present conflict, the paper points out, is an undeclared war and Japan lacks the legal power to blockade.

BRITISH POSITION WEAKENS

The Sactangpao, organ of the Chinese Army, considers "that the concession weakens the British position in the Far East and marks the end of Britain as a major Oriental Power."

According to the Chinese press, provincial and local associations are adopting anti-British resolutions.

A telegram has been sent to Lord Cecil, President of the League of Nations Society, by Dr. Chu Chia-hua, President of the Chinese League of Nations Society, on behalf of his group.

NOT ONLY UNFRIENDLY

The telegram characterises the British action as "not only unfriendly, but also unwise."

Commenting on Mr. Churchill's statement that "England is not unmindful of her obligations towards the National Government of China," influential Chinese declared in private conversations.

"The closure of the Burma Road is an outright betrayal of every obligation, moral and legal, to the only Government of China."

Many, including some influential leaders, it is said, are at present

GOING FASCIST

CHUNGKING, July 21 (Reuter)—Chinese circles generally interpret the formation of the new Japanese Cabinet, under Prince Konoye and the inclusion of Mr. Matsuoka as Foreign Minister as a sign that Japan is going Fascist.

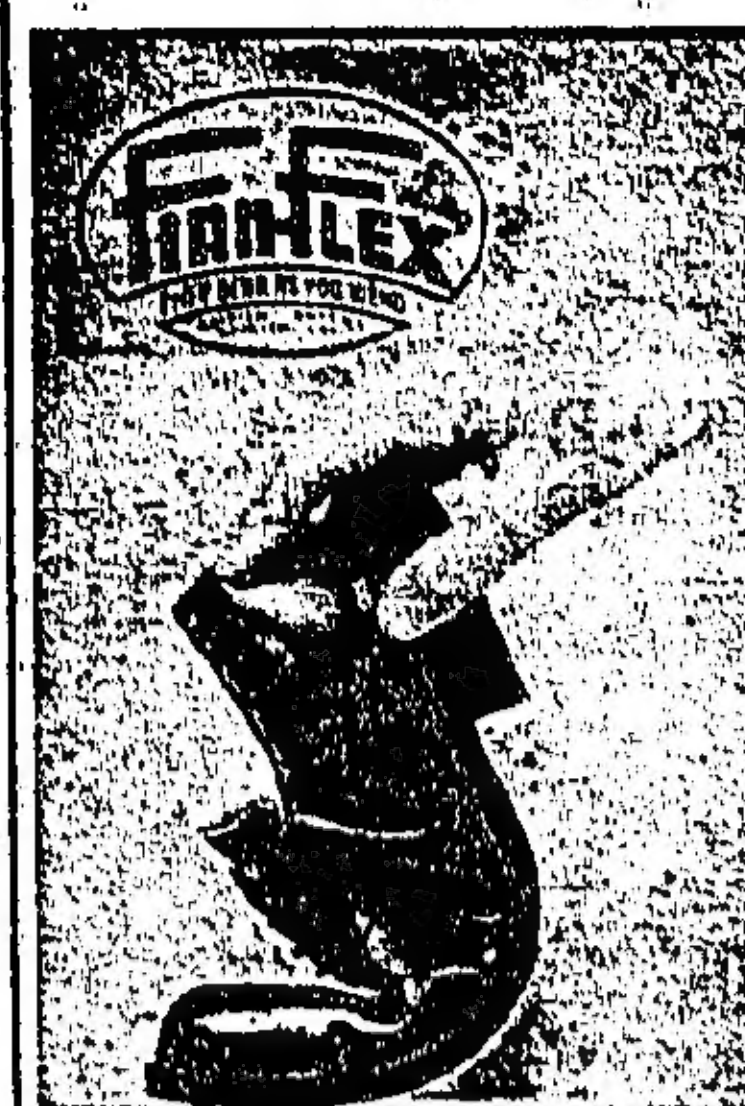

The organ of the Communist Party says that "Britain is hoping to buy off Japan at the expense of China to strengthen her own position in her fight against Germany, but Fascist Japan will only press for further concessions from Britain."

TOTAL BANKRUPTCY

The Ta Kung Pao, an independent daily, describes Britain's conclusion of the Burma Road agreement with Japan as "total bankruptcy of the British Far Eastern policy of selling out friends to please brute force. This policy will only court disaster."

The paper continues the "United States must now emerge as the stabilising force in the Pacific. As soon as she shows the slightest sign of weakness Japan will immediately start her southward expansion policy to create disturbances in the Pacific."

demanding a realistic reorganization of Chinese foreign policy. They say that China's only recourse lies in seeking closer association with the Russo-German bloc.

RE-OPENING TRADE POSSIBILITY

Decisions have been reached, it is learned, between the Japanese Consul-General, Mr. Kita, and the British Consul-General, Mr. Blunt in Canton, regarding the negotiations for the lifting of the restrictions on the import and export trade between Canton and the Colony.

The details of the agreement will be released in Tokyo, Canton and Hongkong within the next 10 days if approved.

It is also understood that if conditions warranted the shipping programme will be increased. At present, however, only three ships ply between the two ports, two Japanese steamers and one British, the s.s. Fatchan, which makes the voyage once every 14 days.

FIRE, MARINE INSURANCE COMPANIES DEPOSIT

The Gazette contains the following—

In exercise of the powers conferred by section 7 of the Fire and Marine Insurance Companies Deposit Ordinance, 1917, the Governor in Council rescinds the Regulations under the headings "Deposit" and "Fees" contained in the First Schedule to the said Ordinance and substitutes the following regulations therefor—

The value of any securities deposited with the Registrar under section 5 shall be the market value on the day on which they are so deposited.

The company shall prove the market value thereof to the satisfaction of the Registrar and shall pay to the Registrar a fee of twenty-five cents for every hundred dollars of such market value.

The company shall before depositing such securities transfer the legal ownership therein to the Registrar.

If at any time the Registrar is of opinion that any securities have fallen below their value at the date of deposit he may require the company to make up the difference in value by the deposit of further securities; and the fees payable on such further deposit shall be charged at the rate set out in Regulation No. 2.

If the company is dissatisfied with any such requirement it may appeal to the Governor in Council who shall thereupon determine whether any further deposit is necessary, and if so to what amount.

Subject to the provisions of section 5 of the Fire and Marine Insurance Companies Deposit Ordinance, a company shall be entitled at any time to substitute approved securities for any part of its existing deposit and the provisions of these regulations with regard to the original deposit shall apply mutatis mutandis to any such substituted deposit.

The fees payable for inspection of documents or registers, for copies or extracts or in respect of any acts done under the Ordinance shall be those prescribed. As may be at the discretion of the Registrar in respect of the like acts under the Companies Ordinance, 1932.

Similar regulations are made regarding section 34 of the Life Insurance Companies Ordinance, 1907.

DRAFT BILL

The following is the draft Bill of an Ordinance to amend the Life Insurance Companies Ordinance, 1907.

Sub-section (5) of section 3 of the Companies Ordinance, 1907, is repealed and the following subsection is substituted therefor—

(5) The deposit shall consist of securities of the following nature—
(a) fixed deposits in banks approved by the Governor in Council;

(b) stocks, funds or securities, other than the security of a charge on land by way of legal mortgage (or otherwise, authorized by the Trustee Act, 1925, or in any manner which may be authorized by any Act amending or replacing the said Act;

(c) any Government securities of the Colony.

Provided that any company which has, before the 1st day of July, 1940, deposited securities not of the aforesaid nature shall have a period of three years from such date to replace such securities by securities of the aforesaid nature.

Sub-section (8) of section 3 of the Life Insurance Companies Ordinance, 1907, is amended by the deletion of the words "other than bank deposits in the name of the Official Trustee."

OBJECTS AND REASONS

By section 3 (5) of the principal Ordinance the whole or part of the deposit required to be made might consist of fixed deposit in certain banks. To cover the remaining portion, if any, of the deposit companies often offer mortgages of leasehold property. These are an unsatisfactory form of security in that they are liable to great fluctuation in value, are not readily realizable and cause considerable work to Government in periodical assessing of their value. Moreover, it is not now the practice in England to accept mortgages as securities under such acts as the Assurance Companies Act, 1909, the Trustee Act, 1925, and the Road Traffic Act, 1934, although they are authorized investments under the Trustee Act, 1925. It is considered that the time has come when mortgages should no longer be accepted as security under the

Two Factories Close Down

There has been very little change in the labour situation in Hongkong of late, though two factories have closed down.

A large gas mask factory, the Jan Hwa Gas Mask Manufactory, is moving to Chungking. The move was decided upon owing to the difficulty of importing materials from European countries.

The high cost of labour in Hongkong has been given as another influencing factor to this move. Most of the employees of the factory, however, are Shanghai men, and they will be sent to Chungking where the factory will resume the production of respirators.

The factory employed 200 workers, including 70 women and had two workshops—one in Yenchow Street in Shumshuipo and the other at To Kwa Wan in Hongkong District.

A small toy manufactory has also suspended business. It is learned that several firms have granted special high cost of living allowance, the average being about 10 per cent. of wages, to their employees.

DETAINED IN FORMOSA

Because they had allegedly entered a fortified zone without permission, three United States citizens who sailed from Hongkong in a tiny yacht a month ago for a trans-Pacific voyage, have been detained by the Japanese authorities in Formosa, while their yacht was confiscated, it is reliably learned.

In the hand of the Japanese are Mr. and Mrs. Joseph Sever and Mrs. Sever's brother, Mr. Morgan Pattison, all from Santa Monica, California, who left Hongkong on their two-masted ketch "Cynjo" on June 24. In their plan to sail across the Pacific, they had apparently incurred the displeasure of the Japanese authorities in Taihoku, Formosa.

Ordinance and existing ones should be replaced.

Clause 2 of the Bill, which replaces section 3 (5), sets out the nature of the securities to be deposited. In future only cash or gilt-edged securities will be accepted as deposit. The proviso allows those companies which have already made a deposit a period of years within which to comply with the new requirements.

The amendment in clause 3 is consequential on the repeal of section 3 (5).

AT KOWLOON

STOLE 200 REAMS OF PAPER

Sentence of two months' hard labour was passed by Mr. E. Himsforth at Kowloon Court yesterday on L. Sing, 23, a native of Java, convicted of the larceny of 200 reams of paper valued at \$1,440.

Defendant, it was stated, was introduced to the complainant by friends some three months ago. He had been of much help to the complainant, Wong Ting, who had a shop at No. 630, Nathan Road, and came to live with him and was supplied with expense money and other comforts as he assisted complainant in his business.

Shortly before July 19, there had been a quarrel between complainant and defendant, and on July 19 defendant came in a lorry to the shop in Nathan Road and took away 200 reams of paper.

He sold the paper to the Chan Yick Paper Shop at No. 565, Stanley Street, Hongkong, and when arrested returned to the police a sum of \$1,162.55.

DEFAUDING THE FERRY COMPANY

Ying Hip-hau, 36, a ticket collector employed by the Hongkong and Yau-mat Ferry Company, was remanded on bail of \$200 when he appeared at Kowloon Court yesterday before Mr. Q.A.A. Macfadden on a charge of conspiring to defraud the Ferry Company of 30 cents at the Shumshuipo Ferry Wharf on July 18.

The case will be heard on the afternoon of July 24.

POSSESSION OF DAGGER

THE MOLTEN MYSTERY UNDER FOOT

UNKNOWN FORCE OF MAGMA

It may seem strange to many people to learn that the recent campaign suggested by the "Scientific American" for interesting amateurs in seismology promises to be of great assistance to volcanology. What is volcanology?

A tourist who recently visited Kilauea Volcano in Hawaii, while it was sleeping, expressed the popular viewpoint. He saw the observatory and learnt of the existence of a volcanologist. "What a clench," he remarked, "nothing to do but wait for an eruption."

It had never occurred to him that some of the fundamental processes of volcanology are happening under his own home town in America.

The science of the earth is all one whereby continents arise, erosion carves out the valleys, sedimentation fills the mediterranean seas (of which the Gulf of Mexico is one), and the sea bottoms lower down. There is a shift of matter under or within the crust of the earth from the heavier regions to the lighter.

INTRUSIVE ROCKS

There is every reason to suppose that this matter is magma, which makes the intrusive rocks at the core of mountain ranges, or the lavas which pour out of volcanoes. Volcanology is concerned with the movement of magma. This movement is going on all the time somewhere, rapidly in some places slowly in others.

These buried movements and shifts of magma, lift the mountain ranges at the sources of the Mississippi, lift shore lines in California and Japan are somehow concerned with the scorching heat under the steam power plants in different parts of the world and the high temperatures of deep oil wells, and play their part in the stresses that make big earthquakes.

Science is gradually learning what is happening under the surface of the globe, and the time is soon approaching when an exact tab will be able to be kept on all these eruptions and thousands of human lives will be able to be saved by being warned well beforehand of the approaching devastation at the hands of nature.

Opportunity Lost?

COMMENT and criticism to be freely expressed on the Burma Road question. The British Government still forms the butt of the greater part of this criticism, but the United States too, which first levelled charges of appeasement at Britain over her concession to Japan, is now criticised in turn for what is described as weakness of policy in Far Eastern affairs. The speech made by the Prime Minister on the agreement with Japan was cogent and has helped to clear up some of the misunderstandings, particularly as regards British policy towards the Chinese nation. Mr. Churchill tried to explain the necessity for the decision and at the same time emphasised that British policy in the Far East aimed at securing political and economic conditions in that sphere which would be at once acceptable both to Japan and China. In other words, that it was not the intention of the British Government to sacrifice the interests of the one for the other. Such an ideal would be admirable if it was possible of accomplishment, but, in the circumstances which Japan and China face each other today on the field of battle, it is difficult to see how Mr. Churchill visualises this settlement.

THE FOREMOST consideration is the Chinese view point that they have been the victims of aggression. Their lands and people have been cruelly attacked, they have been deprived of large and rich tracts of territory; the invaders have sought to dominate the whole of their terrain by methods of terrorism and a type of diplomacy that will not stand the light of investigation and are trying to secure an economic stranglehold on the country in order to satisfy their own policy of expansion. Faced with this position, the Chinese nation, having vigorously and successfully resisted the aggressive methods of Japan at a great sacrifice, are more than ever determined to continue their struggle until Japan admits her failure and withdraws from Chinese soil, leaving China's sovereignty and integrity unimpaired. Japan, on the other hand, are brutally stubborn in their resolve to subjugate China, despite the fact that they have suffered enormously in man-power and material and have reduced their country to a dire economic state. The question may, therefore, be asked: What is the happy medium which Britain hopes to impose between these two points of view?

NEXT in order of importance comes Britain's own position in the Far East, in conjunction with that of the United States. The demands which have been made on Britain, and to which she has now agreed in principle, make it abundantly clear that her own position, prestige and interests in the Orient are in danger. Acquiescence, therefore, in the Burma Road issue has only postponed the greater pressure that will now be put on the British Government. It was admittedly a gesture of weakness of resolve. It lost the British Em-

CORRESPONDENCE
EVACUATION AND LOSS OF TRADE

To the Editor, Hongkong Daily Press

Sir—As an old Importer and Exporter, I venture to point out the irreparable loss of trade to the Colony arising out of the mass evacuation from Hongkong. Business has been, during the last three years of Sino-Japanese war, dwindling from day to day and under the present situation we are facing ruin. It seems to me we are simply playing into Japanese hands, for to kill our trade is their aim.

Once trade is lost, it will never come back to us. The Government might as well be prepared not to expect anything from the War Revenue. Tax as there will be no profit for 1940/41.

Yours etc.

EXASPERATED.

Thefts From Cars

Mr. Millar, of No. 3, Pratt Buildings, has reported the loss from his car between 7.30 and 8.00 p.m. yesterday of a rattan basket with contents valued at \$16.50. These included a woollen bathing suit and other beach wear.

The car, No. 5390, was parked outside No. 235, Prince Edward Road or outside the Majestic Theatre at the time of the loss.

Mr. J. R. Jones, of No. 11, Carnarvon Buildings, has reported to the police the loss from his car, No. 410, parked outside his home, of a driver's licence and motor-car licence.

YUNNANESE URGED TO PREPARE

General Lung Yun, Governor of Yunnan, has issued a manifesto to the Yunnan people exhorting them to prepare against a possible Japanese invasion of the province.

He said that only by mobilising all the people can final victory for China be assured. He hoped in particular that all able-bodied men will join military service.

He declared that as Governor, he will lead the armed forces to fight at the front lines, says Central News.

Mrs. J. Key, wife of Mr. J. Key, of the Government Radio Office, left Hongkong for the South on Saturday.

pire an opportunity of asserting its authority in the Far East and it lost the British Government the opportunity of a final showdown with Japan by calling her bluff over the Burma Road and allied issues. The view is now being put forward that Britain might have adopted a stronger attitude and given a definite "NO" to Japan, if she felt sure that the United States would support her position and take similar action. It might, however, be logically contended that the United States holds the same opinion and that American action in her own interests might have been taken more promptly if Britain had provided of her determination not to make any concessions to Japan. And thus, between these two standpoints, opportunity to bring the Far Eastern aggressor to her senses was lost. The concession now made to Japan jeopardises the security of China, who has been a trusted friend of both Britain and the United States. It is a deplorable sacrifice, which can only be remedied by concerted action on the part of both Britain and the United States in shaping their future policy when such an opportunity next presents itself. Knowing the Japanese as they do, such an opportunity will not be long in forthcoming now. In fact, it will be one of the natural results of the regrettable gesture which was made to Japan in the last few days.

DEATH OF MRS. P. GOCKCHIN

WAS AILING FOR SEVEN YEARS

We regret to record the death of Mrs. Gockchin, wife of Mr. Philip Gockchin, General Manager of the Wing On Co., Ltd., and Chairman of the Chinese Chamber of Commerce, who passed away at her residence No. 14, Fung Fai Terrace, Happy Valley, yesterday after an illness of seven years. She was 61.

The late Mrs. Gockchin, who was very popular among a large circle of Chinese friends in the Colony, is survived by her husband, five sons, two daughters and many grand-children, and to them the deepest sympathy will be extended in their bereavement.

The funeral will take place tomorrow afternoon at the Chinese Christian Cemetery, Pokfulam. The cortege will leave the residence at 2.30 p.m.

FUNERAL OF MRS. A.A. BARROS

The funeral of the late Mrs. Antonia Anna Barros took place at the Roman Catholic Cemetery on Saturday, the Rev. Fr. A. Grampa conducting the last rites.

The late Mrs. Barros is survived by her husband, Mr. A. V. Barros, daughters, the Misses B. Barros, E. Barros and C. Barros, and two sons, Messrs. L. Barros and M. Barros.

Besides the chief mourners those present included Messrs. C. Xavier, J. Antonio, L. Goso, C. Leon, S. Souza, D. F. Lopes, V. Ribeiro, H. Hyndman, M. Rull, C. Victor, H. A. de B. Botelho, B. HITLER'S BOMBERS BEATEN BY R.A.F.

NAZIS FAIL TO REACH OBJECTIVES

LONDON, June 20 (By Air Mail)—Hitler's massed attack on Britain's East Coast air bases early yesterday was brilliantly frustrated. Credit for what was undoubtedly a decisive victory belongs to all three branches of our forces engaged—anti-aircraft gun units, fighter aircraft, and searchlight units.

SPECTACULAR SUCCESS

The searchlight crews had spectacular success in picking up and holding the raiders.

The A.A. guns put up such a bar-

rage that the planes could not fly low enough to bomb accurately. And the fighters engaged the bombers with lion-hearted courage and skill.

The Germans were thus prevented from reaching their objectives. In fact, they did no serious damage to military objectives.

But the success of Britain's defences meant that civilians received the force of Hitler's bombs.

LESS THAN ACCURACY

Driven to unload their cargoes from heights of more than 20,000 ft., they hit people in their homes. It is a fact which must be faced that while Hitler is seeking to paralyse our home defences, and cripple our factories and communications, civilians will suffer every time. We force them to less than accuracy.

But the old advice still stands: Stay indoors and in cellars, or at least on the ground floor, if shelters are not available.

SHELTERS ERECTED IN CENTRE OF LONDON STREETS

LONDON, June 27 (By Air Mail)—Large blast and splinter-proof shelters made of brick and concrete are being constructed in London. In some places, as in Regent Street, these communal shelters are being built in the middle of the road. They are erected according to specifications issued by the Ministry of Home Security, with brick work 13 inches thick, reinforced concrete roofs, staggered entrances and emergency exits. They are divided into unit cells; the maximum capacity of each being 50 persons.

The shelters are designed to resist the effect of a 500lb. bomb falling 50ft. away.

Australian Naval Reservists in Hongkong are to be entertained to a "Melbourne Cup Night" tomorrow at 8.30 p.m., at the Kowloon Cricket Club by the Australian and New Zealand Association.

BIG INCREASE IN R. A. F. TRAINING

RISING INTAKE OF PERSONNEL

LONDON, June 25 (By Air Mail)—Extensive measures have been taken to expand training organisation in the R.A.F. to cope with the increasing intake of personnel, writes a military correspondent in the Daily Telegraph.

A GREAT POOL

The organisation provides for the adjustment of training to the all-round increase in the strength of the Air Force and to aircraft production. The system provides for the maintenance of a great pool of approved personnel to draw upon to the necessary extent.

Entries consist of those who volunteered for the R.A.F. before they were due to join the forces under the National Service Act, those who on joining expressed preference for the R.A.F. and serving airmen who wish to become members of air crews.

HIGH STANDARD

The standard, physical and mental, is high. In addition to good education, candidates must have the qualities of courage and determination. It would prevent disappointment if men lacking in any of these qualities forebore from applying.

If there were any slackening of the rule which insists upon the educational qualification a heavy toll of life and aircraft would be paid.

I was informed in authoritative quarters yesterday that the average proportion of suitable candidates for the R.A.F. in the successive groups called up under the National Service Act is as high as ever.

BIG NUMBERS TRAINING

The number of training grounds is steadily being increased, and it is permissible to publish the numbers of men under training the country would be astonished.

It is still necessary to provide for a waiting period never exceeding three months during which candidates are advised to retain their civil employment and in view of which employers are asked to fall in with the scheme.

A new element in the organisation is the opportunity given to candidates to spend three months on ground defence duties before being sent to an initial training wing.

Britons In "Big Money" Class

Britain now has 1,024 citizens in the very wealthy class.

Taking those in this class as people with incomes exceeding £30,000 (\$150,000) a year, the latest figures issued by the Commissioners of Inland Revenue show an addition of 107 in a year.

Ninety-nine people earn more than \$500,000 a year; eighty-five earn up to \$500,000, and 232 have incomes reaching \$375,000.

Down the scale 3,900,000 persons have incomes in the region of \$10,000 a year. Last year Britain had a gross income of \$20,800,000—just enough to pay for 693 days of war.

WOMEN'S WARTIME WORK

The Kiangsi Provincial Kuomintang Headquarters has made plans for accelerating women's wartime work.

While existing women associations will be reorganised and strengthened, new ones will be formed. They will be the guiding and driving force in women's wartime work.—(Central News).

LITTLE ADOLF FAILS TO TO MAKE IMPRESSION

London Unmoved By His Reichstag Utterances

LONDON, July 21 (Reuters)—Hitler's speech to the Reichstag has failed to create any impression in the world, and both in the British Empire and the United States the opinion is expressed that whatever Hitler's intentions his record renders valueless any peace offers.

The Canadian newspapers yesterday reaffirmed the determination of the Dominions to back Great Britain to the last man.

In the United States, Hitler's speech was faced out from 31 Pacific Coast radio stations.

The announcer said: "We are sure our listeners will concur in our opinion that Hitler should not be allowed to use our American facilities to try and justify his crimes against humanity."

As yet there has been no mention over the Soviet radio of the speech.

MASTERPIECE OF HYPOCRISY
The speech was described yesterday as "a masterpiece of hypocrisy and distortions" by the New York "Herald-Tribune".

The newspaper added: "The war is a struggle to the death—a struggle in which nations must be destroyed if Britain is to live."

The New York Times says: "In form and substance, Hitler's ultimatum was the mixture as before, it contained the same falsifications of history which have come from Hitler on past occasions."

MASTERPIECE OF HYPOCRISY
Although there is no official comment hitherto in Istanbul, it is seen by Turkish circles as having been necessary owing to the need of Hitler to justify the war to the German people, whose morale has been badly shaken by the heavy losses of the army and by the constant British air raids.

HITLER EATEN BY LUST FOR WORLD DOMINATION

LONDON, July 21 (Reuters)—"We are facing one of the greatest choices in history—the continuance of civilisation as we know it versus the ultimate destruction of all we hold dear."

This and other salient passages of President Roosevelt's address to the Democratic National Convention in Chicago were cited by the London press yesterday as refutation of Hitler's repetition of the "old story".

Hitler's "peace offensive" meets in London on August 15, and says it is curious that the speech contained no allusion whatever to America, notwithstanding that President Roosevelt had pledged United States resources more uncompromisingly than ever to sustain the cause of freedom.

The excuses put forward to cover his abominations towards small neutral states have all been heard and refuted before.

CAUSE OF THE FUTURE

Hitler in effect admits his offer of peace was and is purely a functionary by attaching no indication of the terms on which peace is possible.

Presumably any terms he now proposes would be based on acquiescence and co-operation in his so-called "new order" for Europe, which has now been exposed in practice as the reduction of most of Europe to serfdom in the interests of the hegemony of the self-chosen German race.

That is a supreme violation of the dearest political principle held by the English-speaking peoples.

We can do no other than fight to the last extremity against it, and because our cause is the cause of the future of humanity against the dead past of the free immortal spirit against the denial of all life and hope, we know that in the end it must prevail.

HITLER'S FALSE LULLABY

The Daily Herald writes that President Roosevelt warned us against "the false lullaby of appeasement," and twelve hours later Hitler sang us that false lullaby.

We know that any peace we might negotiate would be no peace but a chance for him to perfect new treacheries and new felonies.

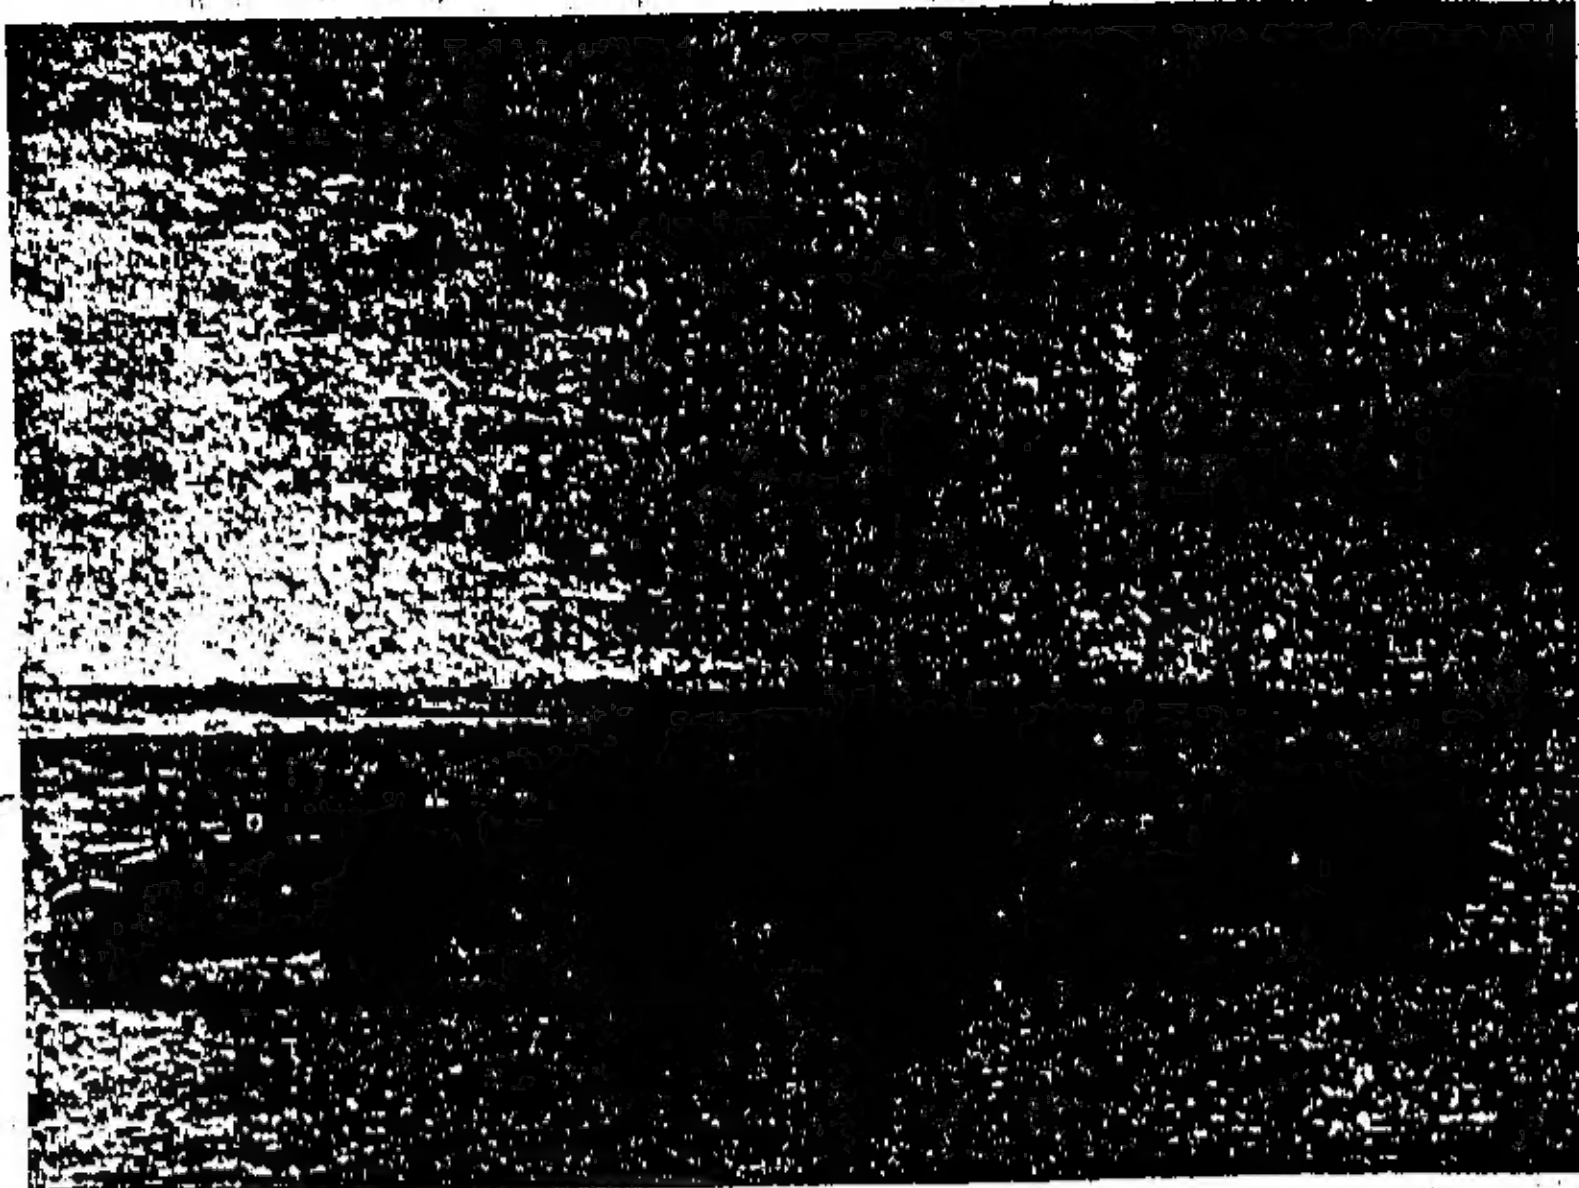

Between this man, eaten by his lust for world domination, and the people who stand between him and his ambition, there can be no peace.

The struggle will be long, grim and costly, but we go on until it is won. We can do no other.

The Daily Mail says we may take it that the speech was pure propaganda.

The "News-Chronicle" declares Hitler spoke in vain. We expect his "last appeal to common sense" to be followed by action against this country.

We are ready to meet it and to strike back.

Food Supply During Air Raids

Life in Chungking during air raid periods will be made more pleasant by a new food supply service to be inaugurated immediately, says Central News.

From 7 to 9 o'clock every morning, carts in charge of members of the San Min Chu I (Three People's Principles) Youth Corps and the Chungking Youth Hostel service group, will be stationed at central locations to sell hot water and tea, biscuits, medicines, fans and towels. During air raid alarms at any time of the day, those carts will be stationed in front of centrally located dugouts in the Lianglukou, Tu Yu Chieh, Chi Hsin Kang and Nan Chu Road (lower road) to the downtown section.

The Air Defence Headquarters of Chungking announces its plan of closing all uncompleted dugouts as a safety precaution. Hitherto, people have been taking shelter with full confidence in unfinished dugouts. Many of these have only one entrance.

FRENCH CONSUL ATTACKED

TIENTSIN, July 21 (Reuters)—The French Consul in Tientsin, M. Lucien Colin, and his wife, accompanied by their chauffeur, were attacked by bandits yesterday while driving in their car to Peking but managed to escape unscathed and reach their destination safely.

They had to abandon their car which was later found on the road riddled with bullets.

It is learned that about 10 bandits took part in the attack on the French couple who left their car to look for cover. They were later picked up by another car and brought to safety.

Japanese troops are stated to be now scouring the neighbourhood for the bandits.

OPPOSED TO KONOYE'S PLAN

CHUNGKING, July 21 (Int'l)—Prince Fumimaro Kono's single party plan is opposed by various influential circles including the M. B. K. interests headed by Mr. Selhin Ikeda, former Finance Minister, Mr. Toyotaro Yuki, Governor of the Bank of Japan, and the Minseito Party, according to Tokyo reports.

New York dispatches stated that there is little comment on the appointment of Mr. Tokumatsu as Foreign Minister except in Portland, Oregon, where he spent his youth in the employ of the late Mrs. Elizabeth Dunbar Beveridge attending the law school of the University of Oregon.

The "Friends of the Wounded" Campaign, launched throughout Free China on February 18, had raised up till July 15 \$1,886,205.25 (Chinese currency).

Among the organisations the "Friends of the Wounded" Campaign Committee organised by Chinese women's organisations in Hongkong collected the "largest amount of donations, which is over \$200,000, according to Central News."

LONDON, July 21 (Reuters)—A total of 72,200 men born in 1907 registered yesterday for military service. According to preliminary figures the total number of registrations was 312,641.

New York Comment ON PREMIER'S STATEMENT

WASHINGTON, July 21 (Reuters)—The New York Herald-Tribune, commenting yesterday on Mr. Churchill's statement on the Burma Road agreement, says: "Quite cautiously worded as the British Prime Minister's speech was, it conveyed clearly enough the fact that the British Government liked the agreement no better than the Chinese."

"In one passage of Mr. Churchill's statement there was the grim promise that if Britain's situation were improved three months hence, Japan would not get any repetition of this stick-up."

TOO SEASONED

"The Chinese say they are going to be annoyed by this agreement but they won't. They are too anciently seasoned in the art of gaining time with much conversation and petty surrenders."

"They will just deplore it and congratulate the British in their own minds upon having yielded so little for so much and pray as fervently that three months hence a British battle fleet will steam into the Singapore base."

"If the Japanese have not learned from Mr. Churchill that Britain owes them something that will be paid with interest at the earliest opportunity, they need further instruction in the subtleties of the English language."

Commenting on Mr. Churchill's statement on the closing of the Burma Road, Mr. Sumner Welles, Acting U. S. Under-Secretary of State, said in Washington that the United States was always ready when conditions warranted to negotiate with China over relinquishment of her special rights in that country.

BIG FIRES RAGING IN CHENHAI

Big fires are raging in Chenhai, Chekiang coastal town, which was lost to the Japanese on July 17, as a result of a furious Chinese counter-attack now in progress, according to military advices from east Chekiang.

Of the two important forts at Chenhai the Chenyuan Fort was recaptured by the Chinese yesterday afternoon, and the Hungyuan Fort is being subjected to severe attacks. The Japanese occupying the latter are expected to be rounded up momentarily.

In addition to Suksushan and Siao-kang, Rat Hill, Kiangnan-shih, Yachien and other points around Chenhai have now been recaptured. Thus the Chinese ring around Chenhai has been tightened.

Heavy casualties are understood to have been inflicted upon the Japanese in the Chinese encircling attack at Chenhai.

Japanese marines landing south of Chenhai are reported to have been repulsed.

According to a Shansi report, suspected of plotting to revolt, puppet troops stationed at Anyi in south Shansi were disarmed and dispersed by the Japanese on July 10. In view of the numerous cases of defection among the puppet troops in North China the Japanese are now extremely cautious, says Central News.

BRITISH BOMBERS RAID IMPORTANT POINTS

Enemy Aircraft Works And Aerodromes Attacked

LONDON, July 21 (Reuters)—An Air Ministry communiqué announces that last night that our bombers attacked enemy aerodromes and seaplane bases along the coast of Northwest Germany and northern Holland. They bombed aircraft factories at Wismar on the Baltic coast, at Wensendorf near Hamburg and at Bremen. Oil plants at Bremen and Gelsenkirchen and Railway communications in Ruhr and near the German Dutch frontier were also attacked. Our bombers engaged and severely damaged two enemy fighters.

During the night Coastal Command aircraft attacked the Emden naval base and the port of Harlingen in Holland. Three of our aircraft are missing. Two more enemy aircraft had been shot down by our fighters yesterday, making a total of four.

AIRCRAFT WORKS ATTACKED

LONDON, July 21 (Reuters)—For 50 minutes R.A.F. bombers pounded away in relays at the Fockewulf aircraft works in Bremen which they re-visited last night, it is now revealed.

Some of the buildings were hit, says an Air Ministry news service bulletin just released, while the adjoining aerodrome was struck by high explosives.

At Wismar bombs were dropped on the Dornier seaplane factory. Large fires broke out near the shipways and the sheds, and three runways were hit.

The plot of one aircraft, making a second attack on the Fockewulf works in two days said what he first took to be new buildings under construction were found to be part of the factory which had collapsed from the earlier bombing.

GAVE HIM THE SECOND BURST

LONDON, July 21 (Reuters)—The Dornier works at Wensendorf were badly damaged in R.A.F. raids. The Wilhelmshaven was another objective.

Despite particularly heavy anti-aircraft fire and balloon defences, continues the Air Ministry news service, attacks were made on some of the basins and wharves.

The plot of one bomber, which accounted for the second of two Messerschmitts and severely damaged it, reported he put a burst of tracer bullets into the enemy.

CHINESE ATTACK SIAOSHAN

KINHWAI, July 21 (Central)—Three columns of Chinese troops made another attack at Siao-shan on the south bank of the Chien-tang River, opposite Hangchow, yesterday.

One of the columns succeeded in forcing its way into the south part of the city and engaged in street fighting with the Japanese.

HEAVILY ATTACKED
The Japanese in the neighbourhood of Lungchow near the Kwangsi-French Indo-China border were subjected to a severe attack by the Chinese yesterday, sustaining heavy losses.

An encircling attack was made against the Japanese occupying Shanghai, east of Lungchow.

JAPANESE GENDARMES INCIDENT

CHUNGKING, July 21 (Central)—As a result of negotiations between Colonel Peck, Commander of the American Marines in Shanghai, and Major-General Miura, Commander of the Japanese Gendarmes in Shanghai, it has been agreed that the American authorities will re-investigate the actual circumstances surrounding the detention of 18 Japanese gendarmes by American Marines on July 7, as a preliminary step toward the settlement of the incident, according to a Shanghai report.

Five X-ray installations presented by the Allied Relief Fund in America were formally accepted yesterday. The apparatus has been installed in various hospitals in Britain. The Fund has also sent many surgical instruments, pounds of wool and miles of materials for civilian relief in Britain.

ANTI-WAR JAPANESE IN HUPEH

ON THE NORTH HUPEH FRONT, July 21 (Central)—Ita, Nakamura and several other Japanese who have been successfully engaged in anti-war propaganda among the Japanese troops on the north and central Hupeh fronts are planning to form a branch of the Japanese Anti-War and Revolutionary League in Hupeh.

REVERSES IN EAST HONAN

Japanese troops fleeing from Luoyi in east Honan with twenty-seven army lorries and two field pieces have been intercepted by the Chinese, suffering about 200 casualties. Reversing their defeat at Kao-cheng on the south bank of the Yellow River in north Honan, 17 miles northeast of Lanfeng, Japanese troops set fire to many civilian houses on their way of retreat. They are being hotly pursued by the Chinese.

GENERAL BROOKE'S APPOINTMENT

LONDON, July 21 (Reuters)—The appointment of Lt.-Gen. Sir Alan Brooke as Commander-in-Chief of the Home Forces was ascribed by military correspondents in London yesterday to the need of having the home forces in the hands of a commander who has had immediate experience of command in France and Belgium, where General Brooke's leadership of the Second Corps was highly successful.

FOREIGN TRADE IN TIENSIN

A Tientsin message states that foreign import trade in the port city other than that of the Japanese is hard hit by the stringent control imposed by the Japanese and puppet authorities in North China.

Many of the principal foreign importers are preparing to wind up their business, says Central News.

SECOND "CONTINGENT" FOR EVACUATION

Direct Trip To Australia And Cabins For All!

With the closing of registration of British female subjects and children under the Registration of Persons regulations on Saturday, it was officially learned that another stage in the evacuation of women and children will be carried out early next month.

Approximately 3,500 persons have registered and already a large number of women have been notified of the possibility of early evacuation unless exemption is secured.

A Committee, under the chairmanship of Mr. Edgar Davidson, has been set up and will consider all applications for exemption which must be made on or before July 25.

Grounds for exemption are:

A.—Women without children in the Colony who are employed in businesses or in Government Departments and who are certified by their employer or Head of Department to be doing work of sufficient importance to justify their retention.

B.—Women and children for whose departure in the near future arrangements have already been made.

C.—Women and children who cannot safely travel at present on medical grounds.

No notifications have been sent to those regarded as needed for essential services.

DIRECT TO AUSTRALIA

In an official statement the Colonial Secretary, the Hon. Mr. R.A.C. North, disclosed that notices have been sent out by the Colonial Secretariat to a number of women registered under the new scheme, informing them that a ship has been secured to take them direct to Australia, with no stop-over in Manila.

The letter sent states that the ship will probably leave on July 28 but factors have since arisen to change that date and the vessel will not leave until early in August.

Good cabin accommodation will be available for all women travelling with children and for those who fail to secure exemption and are expected to travel on the ship.

Those who receive notices of intended evacuation will receive a further communication from Government and they are asked to wait until that further notice is received before making their final arrangements for the journey.

One of the reasons for this is that there may not be sufficient accommodation. Notices have been sent to more persons than there is berth accommodation for, and if the applications for exemption are fewer than anticipated, some of the evacuees may have to wait for a later ship.

EVACUEES IN MANILA

About 900 Hongkong evacuees have been moved out of Fort McKinley and transferred to civilian quarters in Manila and Baguio. Red Cross headquarters announced on Saturday night.

A special train for Baguio took 500 women and children, making a total of about 1,700 evacuees in the mountain city.

La Palma de Mallorca Hotel in Intramuros has been made ready to receive 300 evacuees. New cots and mattresses were installed in the hotel for the visitors. Between 300 and 400 more evacuees will remain at Fort McKinley waiting to be moved to more permanent quarters.

Nazi Criminal Law In Netherlands

BERLIN, July 21 (Reuters).—The German Criminal Law is to be enforced in the Netherlands, states a German News Agency report from the Hague.

A decree of the Reich Commissar lays down that the seat of justice will be in The Hague, and will function to the exclusion of the Dutch Law in the prosecution and sentencing of the offenders who are Germans and those who formerly had German nationality or those who, irrespective of nationality, commit offences against the German Reich, people, National Socialist Party or German subject.

Irene M. Abelas of the nursing service of the Philippine Red Cross in charge, accompanied the evacuees to Baguio. Four Red Cross nurses are already in Baguio. Miss Abelas has set up health and hospitalization headquarters for the evacuees with the help of Baguio health authorities.

DIET KITCHEN

Eight Red Cross nurses are on duty day and night at La Palma de Mallorca. A diet kitchen for children has been set up and everything done to insure the health and comfort of the visitors.

Manila is digging deep into its stores of household furniture, linen, beddings and other odds and ends in an effort to assist in the care and comfort of the hundreds of Hongkong women and children who are housed in various centres in the city and vicinity.

TEMPORARY STAY

Questioned whether he had received any advice regarding the arrival of ships in Manila to take British women and children evacuees to Australia, Mr. Charles H. Forster, manager of the Philippine Red Cross, replied in the negative.

He said that the vessels may be the same ships which took the evacuees from Hongkong to Manila.

The United States High Commissioner, Mr. Francis B. Sayre, stated that he understood the evacuees

NEW PROTECTION CORPS

It is learned that the authorities have decided to organise a Protection Corps to assist in the maintenance of peace and order in the event of an emergency.

The strength of this Corps is aimed at 2,000 and the members will have to be sworn in. However, it is understood that only selected members will get training in firearms, while the remaining number will only be equipped with truncheons.

would remain in the Philippines only temporarily, possibly not more than 60 days.

It was learnt from official circles that, including the official evacuees in Manila, the Colony's population has been reduced by approximately 20,000 since the beginning of July.

Vernacular press claims that some 250,000 people have left Hongkong is said to be an exaggeration.

Cabaret Man Shot In Back In Shanghai

Avenue Edward VII was the scene of an early morning shooting on July 10 the victim being Wong Se-ling, 40, native of Quinsan and described as a cabaret manager, who is lying seriously wounded at the Paulan Hospital and is not expected to recover, says the North China Daily News of July 11.

The victim was waiting for a westbound bus at the intersection of Avenue Edward VII and Chungking Road, when an unidentified Chinese approached him from behind and fired two shots at him at close range. The shots entered through his back and he collapsed.

The shots were heard by a Chinese constable of the Settlement police who telephoned to the Chengtu Road station from where a party of police officers, including Inspectors T. Hill and E. J. Lees, were sent to the scene of the crime.

CONDITION SERIOUS

It was learned that the victim was rushed to the Paulan Hospital in an ambulance of the Fire Brigade and that his condition was serious. His assailant escaped unnoticed by mingling with a crowd of Chinese on the road at the time.

Wong is well-known to the police, who do not attribute the shooting to a political motive. He is unmarried and is described as unemployed.

On account of ill health, Mr. J. T. Bagram has resigned from the Consul-Generalship of Thailand at Hongkong. For the time being Mr. Sangar Suwanasri, the Thai Trade Agent here, is in charge of the Consulate-General until a successor to Mr. Bagram has been appointed by the Foreign Ministry in Bangkok.

DIVORCE CASE ADJOURNED

An action for divorce which counsel said presented innumerable difficulties was adjourned indefinitely by Judge Sir Allan Mossop in H. M. Supreme Court Shanghai, on July 12, the petitioner being Mrs. Anna Luckie nee Leskina, who sought a dissolution of her marriage to Mr. Alexander Reid Luckie.

The parties were both absent. Respondent, who was unrepresented by Counsel was stated to be in Indo-China, while Mr. K. E. Newman for petitioner, said she was in America. Counsel applied for an adjournment.

Lt. John Edwards, of the Cameron Highlanders, son of Col. C. M. Edwards, of Canadian Headquarters in England, was drowned when a car in which he was travelling crashed through the railings of a bridge over the Chaudhry Falls at Ottawa.

Suicide Pact Alleged

STRANGE STORY IN SHANGHAI COURT

S. M. Katz, a Russian who is recuperating after an alleged suicide attempt which he was said to have made together with a refugee couple in the New Asia Hotel, Shanghai, on July 9, was charged by his former employer in the First Special District Court Shanghai, on July 12, with misappropriation amounting to \$1,500, says the North China Daily News of July 13.

The charge was framed by the proprietor of the "Sipa" macaroni factory in Chusan Road where Katz was formerly employed as manager. It was alleged in court that the sum that had been misappropriated would be bigger as investigations went on. The next hearing will be held on July 19.

SERIOUS CONDITION

Katz was found by the police on Tuesday night in the hotel in a serious condition along with a refugee couple, Dr. and Mrs. S. Meyer. It was alleged that all three had attempted to commit suicide by using liquid poison. The doctor has already died in hospital. It was revealed in court that after he met the refugee lady some months ago, Katz had often seen her and it was alleged that he had been supporting the woman who, it was further alleged, gave some money she thus received to her husband.

Since continuous support needed money, Katz was alleged to have misappropriated the money but realising that police were after him he invited the couple to the hotel, telling them of his crimes. He was alleged to have suggested that there was no other way out than that of committing suicide in a triple pact.

Miss Langlen, Paris, the lawn tennis player, left estate in England valued at £2,234. She died intestate. Her mother is the only person entitled to the estate.

TRUTH ABOUT REICH'S OIL RESOURCES

Deficiency In Quantity She Cannot Remedy

For any fair computation of Germany's strength in the field it is essential that her position in regard to oil supplies should be carefully surveyed. What sources of supply are still open to her? How much does she require? What has she acquired by conquest?

The answer to the last question is that Denmark and Norway have yielded a substantial but irreplaceable stock to the invader. Danish reserves are estimated to have been about 180,000 tons, half of which was petrol. Norway's stocks amounted, at most, to 250,000 tons, part of which has fallen into German hands, writes a Home correspondent.

But this was a windfall; when it has been spent Germany must herself supply the oil which industry and vital civilian services may need in her occupied territories. It must also be remembered that German forces operating in Norway are using up quantities of oil, particularly aviation spirit.

In 1938, Germany imported or produced at home nearly 8,000,000 tons of oil and substitutes, but much of that total must be assumed to have been absorbed in building up stocks against use in war, and her 1937 consumption of 5,500,000 tons may be taken as more nearly representative of her normal peace-time requirements.

Even then she was laying in stocks, but against this can be offset a natural increase in demand during the last two years. The 5,500,000 included 2,500,000 tons of gas and diesel oil and 500,000 tons of lubricating oils. In addition, German shipping used 650,000 tons of oil as fuel.

Under war-time conditions general consumption would be considerably reduced. Private motoring has been virtually abolished in Germany, and a further saving of petrol is being effected by the increased use of benzol, alcohol, producer-gas and other substitutes.

After allowing for the maintenance of essential civilian services and for the full use of Germany's 450,000 commercial vehicles, which will certainly be needed to supplement her railway system, civilian petrol consumption could still be reduced to about 1,750,000 tons.

HOME PRODUCTION

A similar saving will have occurred in the use of lubricants, and regeneration of used lubricating oils is likely to be practised on a large scale. But, unless industrial activity is to be hampered, this item can hardly be cut below 400,000 tons a year. The supply of oil fuel for shipping no longer presents a major problem; it is confined to fuel and diesel oil for such of the surface fleet as remains afloat and active and for submarines, which, it is computed, use about 25,000 tons of diesel oil a year on an average of 30 submarines kept constantly at sea.

With the most rigid economies consumption of all oil products might be reduced from the 1937 level by roughly 2,250,000 tons to 3,250,000 tons. To this must be added consumption in Austria and Czechoslovakia, which, allowing for a small production, was 860,000 tons. This might be reduced by, say a third leaving a total oil consumption for Greater Germany of about 3,800,000 tons, apart from occupied Poland, which is probably self-supporting, and Denmark, where the normal consumption of 700,000 tons might be cut down by half.

Germany herself has an appreciable crude oil production which started in 1858, when the first European oil-well was drilled at Wietze, and she can also boast of the deepest well outside the United States. Most of her own oil comes from the old fields in Hanover and from the Reitbrook field near Hamburg, opened up in 1937. From these and other smaller fields Germany should obtain about 750,000 tons this year.

ROMANIA'S EXPORT

Her main internal source of supply is, however, her oil-from-coal industry, which is expected this year to have an output of some 2,250,000 tons, mostly of light motor fuels. Some oil may be obtained from the Polish oilfields, where production in 1938 was 500,000 tons, although very little was available for export.

Germany's oil imports are confined to supplies from Rumania, which, from her geographical position, is a natural source of

THE NATAL SQUADRON

DURBAN, July 21 (Reuter).—The Natal Speed Planes "Fund" closed yesterday with a total of approximately £201,000 subscribed. Except for about £2,000 every penny of the total has been raised within the period of six weeks.

It is believed that never in the history of South Africa has so much money been voluntarily subscribed for any purpose in so short a period.

A squadron of Spitfires, which the money will purchase, will be known as the Natal Squadron and will be maintained as such by the Air Ministry for the duration of the war.

LONDON MONEY MARKET

LONDON, July 21 (Reuter).—The Money Market was easier in the latter part of the week after being somewhat stringent earlier.

The Treasury was also well supplied with funds as witness the week's Treasury bill allotment of only £81,000,000 as compared with £85,000,000 several weeks previously.

The average rate of allotment was £14.45d which was practically the same as the week earlier.

Applications aggregated £118.755 millions and competition was keen, hence the market received only 37 per cent of its applications.

Wall Street closed steady.

NEW TRADE AGREEMENT

LONDON, July 21 (Reuter).—A new trade agreement between Germany and Hungary was signed yesterday, stated the Budapest correspondent of the official German news agency.

It was explained that in view of the general European situation the new agreement will run for one year only instead of the three-year period which hitherto has been the rule in German-Hungarian trade treaties.

VICHY STARTS REPAIRS

LONDON, July 21 (Reuter).—A report from Vichy yesterday said that a meeting of French ministers decided on various plans for reconstruction.

The Government will finance the reconstruction work, railway materials, repair of railway lines and so on.

The work of restoring damaged buildings will be started at once.

might eventually enable Russia to make a much larger contribution.

Meanwhile Great Britain can purchase almost unlimited quantities in any of the world's markets, and, with the addition of Norwegian merchant tonnage, control nearly 50 per cent of the world's tanker fleet, more than sufficient to transport all the oil they require. From the United States they can also obtain aviation spirit—which Rumania only produces in small quantities and Russia herself imports from the United States—and an unlimited range of other products. Germany will certainly be unable to obtain the highest quality aviation spirit, and even if she has sufficient petrol, may well be inconveniently short of diesel oil and lubricants.

SHORTAGES IN 1918

The position is somewhat similar to that in 1918, when the Allies were using roughly four times the quantity of petroleum that was available to the Central Powers. Largely owing to this they had a numerical superiority in the air of three to one.

Inside Germany, industrial output was crippled by shortage of petrol and of paraffin for artificial lighting, whilst inferior lubricants caused damage to a great deal of valuable machinery. Even the German railway system—which in the early years of the war had formed the backbone of her offensive—suffered frequent breakdowns owing to the inadequate supply of high-quality lubricating oils.

In 1940 Germany is certainly able to conjure up sufficient oil for her most urgent needs, but, in contrast to the Allies, she must still conduct her war activities within the rigid limits imposed by the handicap on her supplies of oil.

SEATS OFFERED TO LABOUR

LONDON, July 21 (Reuter).—According to the Sydney radio, Mr. Menzies offered the Labour party five or six seats in the National Cabinet. The proposal will be considered by the Australian Parliamentary Labour Party at their meeting in August.

ENEMY CRUISER SUNK BY THE "SYDNEY"**Italians Excel Again In Running Away!**

CAIRO, July 21 (Reuter).—The Commander-in-Chief of the Mediterranean Fleet, in a communique giving details of the sinking of the Italian cruiser Bartolomeo Colleoni, reveals that the Bartolomeo was another cruiser of the same class as that first sighted by destroyers north-west of Crete at about 7.30 a.m. on July 19.

When H.M.S. Sydney arrived in support about an hour later, the enemy altered its course to the south-west and endeavoured to escape.

"Our forces, however, made a determined attack and accurate fire from the Sydney caused vital hits on the Colleoni which reduced her speed, enabling our destroyers to complete her destruction."

The second cruiser was chased and hits were observed but her superior speed saved her from a similar fate.

"Our forces rescued no less than 545 men from the Colleoni, including the Captain. Our ships were bombed by the Italian Air Force while carrying out this humane work and again a number of times on the return journey."

There were no casualties in the British ships. On arrival back in harbour the Fleet gave their comrades a rousing welcome, other ships in the harbour joining in.

SINKING ADMITTED
LONDON, July 21 (Reuter).—The sinking of the Italian cruiser Bartolomeo Colleoni by the Aus-

tralian cruiser Sydney was admitted in an Italian communique issued in Rome yesterday. The Italian communique says the battle took place at dawn off Crete and lasted three hours. The cruiser sank after being struck in a vital part. No further details of the action have yet been issued in London.

DEPLORABLE SITUATION IN SHANGHAI TODAY

Chairman Of S.M.C. Appeals To Consular Body

CHUNGKING, July 21 (Central)—Government and newspaper circles in Chungking were shocked at the news of the assassination of Mr. Samuel H. Chang, prominent journalist, by two gunmen in Shanghai on July 19.

His untimely death was considered a great loss to Chinese journalism.

Generalissimo Chiang Kai-shek addressed a telegram of condolence to the family of the deceased. Dr. Wang Shih-chieh, Minister of Publicity, and Mr. Pan Kung-chen and Mr. Hollington K. Tong, Vice-Ministers of Publicity, also sent a joint telegram expressing their sympathy.

Value Of Gold Units Increased

SHANGHAI, July 21 (Reuter)—The Japanese-appointed Superintendent of Customs here has increased the value of Customs gold units, on which Customs duties are paid, to 6¼ per cent, representing a general increase of Customs duties on this percentage.

The increase took effect on July 20.

Customs gold units previously equalled 40 cents gold.

Traders are reported to be concerned over the increase which is called an arbitrary Japanese action done without consultation with the Powers concerned, chiefly Britain and the United States.

GERMAN CHARGES ARE REFUTED

LONDON, July 21 (Reuter)—Dutch circles in London refute the charges of ill-treatment of German nationals brought against the Netherlands East Indies authorities.

They quote a recent report issued by the Governor-General, stating that the material and hygienic conditions of internees were quite satisfactory and that divine services, lectures, music and stage performances were being organised.

Since then the internees have been transferred to a new camp with even better facilities for recreation.

R.N.L.I. READY TO PAY SHARE

The Royal National Lifeboat Institution declared in London it is ready to pay its share of the cost of the evacuation from Dunkirk.

Nineteen lifeboats took part in the operation. One was lost, another damaged, abandoned and taken into port later and most of the others damaged.

The Institution's cost of the evacuation amounts to over £2,000, says Reuter.

OIL FOR ENEMY FROM SPAIN?

LONDON, July 21 (Reuter)—According to a Washington message to the New York Times yesterday, shipments of oil products to Spain greatly in excess of last year's exports have led diplomatic circles to fear that Germany and Italy may be getting vital oil supplies through the blockade by this route.

The message says there is every reason to believe that far more oil is reaching Germany from America since the war started than Hitler has obtained or can hope to obtain from Russia.

DR. HU SHIH

CHUNGKING, July 21 (International)—Dr. Hu Shih, Chinese Ambassador in Washington, will shortly relinquish his post to become President of the Academia Sinica, which post was left vacant by the death of Mr. Tsai Yuan-pei.

Dr. W. W. Yen, former Ambassador in Washington, is likely to succeed Dr. Hu as Ambassador to the United States. There is a report that Mr. T. V. Soong is also being persuaded to take up that post.

The older girls, aided by their teachers, in the King's Park Refugee Camp, are to re-make these materials into overalls for orphans, moccasins and other children transferred to King's Park from the Po Leung Kuei.

According to a Shanghai dispatch, Mr. W. J. Keswick, Chairman of the Shanghai Municipal Council, has written a letter to Mr. Foul Scheel, Danish Consul-General and concurrently doyen of the Consular Body in Shanghai, asking him to summon a Consular meeting immediately to invite the co-operation of the different Consuls-General in Shanghai with the S.M.C. in the suppression of criminal acts of a political nature in the International Settlement.

Mr. Keswick mentioned in particular the assassination of Mr. Samuel H. Chang. He said that the S.M.C. is doing its utmost to suppress terrorism but so long as secret organisations for political murders exist, such criminal acts will still be perpetrated and all the efforts of the S.M.C. will be of no avail.

Mr. Keswick said that as Chairman of the S.M.C., he considers it his duty to call the attention of the Consular Body to the deplorable situation in Shanghai. He, therefore, appealed to it as well as the civilised world.

It is learned that Mr. Scheel has sent copies of the letter to different Consul-Generals in Shanghai and is seeking their opinion whether it is necessary to call a Consular meeting to discuss the situation.

JAPANESE ANTI-WAR LEAGUE

The formal inauguration of the Japanese Anti-War and Revolutionary League was celebrated in Chungking on Saturday afternoon in conjunction with the release of a number of Japanese war prisoners.

All the war prisoners released volunteered to join China's resistance and work for the emancipation of the Japanese people from military rule, says Central News.

CABLE NEWS IN BRIEF

LONDON, July 21 (Reuter)—The Air Ministry revealed in London yesterday that R.A.F. planes have bombed the famous Krupp works at Essen.

Two direct hits were registered on the works, and an explosion followed.

BERLIN, July 21 (Reuter)—The German news agency stated yesterday that Hitler received Count Ciano, the Italian Foreign Minister, with whom he had a long discussion.

LONDON, July 21 (Reuter)—It was stated in London yesterday that it was hoped ships would soon be available to take British children to the United States and the Dominions.

WASHINGTON, July 21 (Reuter)—The sinking of two British merchantmen in the vicinity of the West Indies is to be the subject of an inquiry in Washington by the U.S. Navy Department and Department of State.

The inquiry will try to establish if the sinkings occurred within the 300-miles safety zone around the Americas.

LONDON, July 21 (Reuter)—The Ministry of Supply in London yesterday issued a compulsory direction to all local authorities in Britain with a population of over 1,000 requiring the operation of satisfactory collection schemes for paper, bones and metal.

LONDON, July 21 (Reuter)—The King yesterday inspected Local Defence Volunteers somewhere in Essex.

LONDON, July 21 (Reuter)—Mr. Cordell Hull, U.S. Secretary of State, arrived in Havana yesterday morning for the Pan-American conference which started yesterday. He was given a great welcome by the Cuban people.

LONDON, July 21 (Reuter)—The London County Council, it was announced yesterday, is satisfied that the capital's civilian defence scheme is ready for anything. Ninety centres are now available for Londoners made homeless in bombings to take shelter and obtain food until they are able to make other arrangements.

LONDON, July 21 (Reuter)—Men of the 1907 Class registered for military service in England yesterday; it was the third registration this month. The 1908 Class registers next Saturday, when the total men registered is expected to reach 4,000,000.

LONDON, July 21 (Reuter)—His Majesty the King yesterday visited R.A.F. training schools, where he saw crews being trained in every type of bomber before being attached to their squadrons. During his tour, he decorated two pilots who had been awarded the Distinguished Flying Cross and the Distinguished Flying Medal.

A National Arbitration Tribunal has been set up by the Ministry of Labour in England to settle labour disputes, during the war. The Tribunal is composed of five members under Mr. Justice Symons.

Mediation of the French Consular authorities prevented a strike of the tram service in the French Concession, Shanghai, says International.

International reports that the Japanese army at Shamen agreed to return the factories to Chinese control as a gesture of economic co-operation. Both the Japanese army and navy are making an effort to show their generosity as a means to attract more people to return to Canton.

Dr. Paul M. A. Lineberger, Jr., Assistant Professor of Political Science, Duke University, U.S.A., who is visiting China to collect first-hand material for a book on wartime China for the World Peace Foundation in America, has arrived in Chungking from Hongkong by airplane. Dr. Lineberger is the son of the late Judge Paul Myron Lineberger, personal friend of late Dr. Sun Yat-sen, and one time legal adviser to the Chinese National Government.

Mr. and Mrs. G. Findlay Andrew, Shanghai, announce the engagement of their daughter, Alleen Margaret, to Alastair Murray, elder son of Mr. and Mrs. A. Macdonald, of Edinburgh, Scotland.
